KHLLS SWIFT GRAY FOX.
While out hunting Thursday aftermoon, Robert Lee killed a fine specimen
of a Swift gray fox of the plains, a few
blocks south of the G. H. pumping
plant in the Val Verde addition. It
weighed is pounds. Despite the season, the fox had an extra long bushy
iail and a fair coating of fur.
Natural history states that this specimen is very rare and is only found in
northern Mexico and parts of southwestern Texas and eastern New Mexico.
It is being exhibited at H. Rayner's
grocery store in East El Paso. KILLS SWIFT GRAY FOX.

Admiral de Ruyter—Greatest of Holland's Sea Captains

TIKE our own Paul Jones, de Ruyter knew no such word as surrender. His life from boyhood up was one constant battle against the enemies of his country. He defeated the proud English navy in two wars. One of his sea battles with the English fleet lasted four solid days, and ended with the advantage resting with de Ruyter. Later he fought several great naval duels against the combined English and French fleets, and while his victories were not decisive, he won for Holland undying gloty. The great de Ruyter abhorred tyranny of every kind, just as do the Hollanders of to-day. When prohibitory enactments are proposed to those of the blood of Holland they vote to a man against it. They are wherever found unalterably opposed to any legislation which would make the many suffer for the faults of a few. Hollanders know that there is no evil in the barley brews and light wines of their fathers—EVIL ONLY IS IN THE MAN WHO MISUSES THEM. In America we have thousands of these splendid people, and Personal Liberty always obtains where they reside. For 57 years Anheuser-Busch have enjoyed the trade of those of Holland blood because every day of these 57 years has been devoted to the honest brewing of Barley-Malt and Hop brews. It is not to be wondered that 7,500 people are daily required to keep pace with the natural demand for Budweiser. Its sales exceed those of any other beer by millions of bottles. ANHEUSER-BUSCH-ST. LOUIS, U.S.A.

VAL VERDE ADDITION,

Pure Food a Necessity

When Congress in June 1906 passed the act now known as the Pure Food and Drug Act it was thought that the problem of supplying the people of the United States with pure and wholesome foods had been solved; but unfortunately such is not the case. One after another of its most important sections have been repealed or rendered ineffective by amendment until the words on a package "Guaranteed under the Pure Food and Drug Act, Serial Number . . " mean nothing.

An example is found in a product labeled "Strawberry Jam" that is being marketed by one of the largest manufacturers in the country. An analysis of this socalled 'Strawberry Jam' revealed the fact that it consisted of less than 10 percent strawberries combined with apple juice made from the cores and skins and certain chemicals to insure a jelly like thickness. And yet this product bears the statement guaranteed under the Pure Food and Drug Act, Serial Number . . .

The Pure Food law as drawn and presented to Congress by Dr. Wiley, the father and most ardent advocate of the movement in this country, was designed to prevent just such deceptions as that stated above. That it has not done so is due to the political power of the large manufacturers and the failure of the mass of the people to realize the importance and need of a law of this nature.

The publicity that is being given the Pure Food question in the daily press and the magazines is leading to a wider understanding of the necessity for a pure food law of the most stringent nature and its impartial and strict enforcement.

When the general public once thoroughly realizes the importance of the purity and wholesomeness of what it eats as related to the future development of the nation, those manufacturers who seek to violate the law in either letter or spirit will find so little sale for their products that they must either comply with the law or close their doors.
